About Me:

I have 3 years of coding experience in languages such as C++, C#, HTML, CSS, Javascript, Java. Moreover, I have experience in block coding game engines such as Scratch. Additionally, I have experience with game engines such as Unity and Unreal Engine. Through learning these technologies within a short time, I have developed strong problem-solving skills and adaptability. I will try my best and am committed to producing high quality work and will always continue to improve my skills.

Skills (Out of 10):

- C++ : 8
- C#: 8
- HTML: 9.3
- CSS: 8.5
